

HILLSDALE HIGH SCHOOL

STUDENT TRAVEL BY PRIVATE AUTO

Be it resolved that, the responsibility to regulate student travel to out-county classes and other school functions is delegated to school authorities. School bus transportation will be provided when economically feasible. In the absence of regularly scheduled bus transportation a student may commute to out-county classes and other school functions by private automobile only if written parental permission is received by the proper school authority.

School authorities will have the right to accept, refuse or modify students' plans to travel by private auto.

Furthermore, be it resolved that the Board of Education recognizes no financial liability in the cases of student travel by private auto and hereby cautions such participating students and their parents to be covered by an adequate auto insurance policy."

I understand the above Board policy on student Travel by Private Auto, and I accept responsibility for my child's use of a private automobile for transportation. I have given my permission to do so. I am aware that the Board recognizes no financial liability in cases of student travel by private auto and feel I am adequately covered by an auto insurance policy.
